Cool Semen Procedures and Fee Schedule

In addition to the regular breeding fee, those requesting fresh cooled semen will incur the following charges. Please review these items and if you have additional questions, please feel free to contact us.

1. For each semen shipment originating from Krshka Quarter Horses there will be a handling charge of \$300.00 to the mare owner. Shipping charges and courier fees will be a part of the handling fee. The return shipping charges for the container will be the responsibility of the mare owner. It is imperative that your veterinarian be aware of your mare's current breeding status and that she is, in fact, ready to be bred. It is Krshka Quarter Horse's preference that all semen shipments are made to, and inseminations performed at, a pre-approved breeding farm. Krshka Quarter Horse's preference is to send semen via Fed Ex, which services your area. There will be an additional \$100.00 added to the semen shipment for counter to counter service.
2. The Equitainer must be returned in its entirety-this means the coolant can and the ballast **must** be returned with the container. Additionally, because of the cost of and demand for containers during breeding season, ALL containers must be returned by Next Day Air (Fed Ex, UPS, Avery, etc.). If the container is not returned and/or has not arrived at Krshka Quarter Horses on the third day post shipment from Krshka Quarter Horses, then a late fee of **\$100.00** will be placed on your account, exceptions made when return is over a weekend. If the container is not returned your account will be billed the amount of **\$300.00**
3. **All Fees must be paid in the full prior to shipping of semen:**
 - **Stud Fee** **\$1500.00**
 - **Cool Semen Shipment fee** **300.00**
 - a. All requests for semen must be received by 6:00 P.M. C.S.T. the day before the stallion collection day. Breeding days will be Monday, Wednesday, and Friday throughout the season.
 - b. A contract for cool semen does not guarantee that semen will be available on the day you submit your request. Mares in residence at Krshka Quarter Horses will be given priority for semen.
 - c. Semen may only be requested on regularly scheduled Krshka Quarter Horses breeding days. No exceptions will be made.
 - d. Cooled semen bookings will be, by necessity, of limited availability if the stallion's book fills with mares to be bred on the premises of Krshka Quarter Horses.
 - e. Breeding season begins March 15 and ends June 30 of the calendar year. No breeding will take place before March 15 or after June 30.
